Title and Key Word Index

(Book reviews are listed under "Books")

Aging 351
Airway, mucociliary transport 277
Airway narrowing 95
Airway obstruction 213
Airway resistance 141
Airway responsiveness 95
Aluminum inhalation 107
Alveolar phospholipids 107
Alveoli 313
Alveolitis 55
Amiodarone 301
Amiodarone-induced pulmonary toxicity in the rat. B. D. Wilson, A. J. Jaworski, M. E. Donner, M. L. Lippmann 301
Animal model, pulmonary toxicity 301
Antagonism of leukotriene receptors and administration of a 5-lipoxygenase inhibitor do not affect hypoxic vasoconstriction. H. M. Thomas, III, M. S. Sourour, D. Lopez, S. H. Foster 187
Assessment of induced bronchoconstriction in anesthetized cats by the end-inflation occlusion method. P. Baconnier, R. Vahi-Maqueda, M. Saetta, B. Hasegawa, J. Milic-Emili, N. Pride 149
Asthma 55, 95, 173
Atelectasis 187

Biochemical and metabolic properties of bovine type II pneumocytes in primary culture. H. G. Augustin-Voss, H.-A. Schoon, A. Gerull, S. Ueberschär 343
Bleomycin 163
Books
—Bronchial Hyperresponsiveness. Edited by J. A. Nadel, R. Pauwels, and P. D. Snashall (reviewed by M. H. Williams, Jr.) 66
—Immunology and Immunologic Diseases of the Lung. By Ronald P. Daniele (reviewed by M. H. Williams, Jr.) 135
—Intravenous Anesthesia and Analgesia. By G. Corssen, J. G. Reves, and T. H. Stanley (reviewed by W. Erdmann) 65
Breathing control 43
Bronchial squamous cell carcinoma 33
Bronchioles 55
Bronchiolitis 69
Bronchiolitis obliterans 69
Bronchiolitis obliterans. T. E. King, Jr. 69
Bronchoalveolar lavage 261
Bronchodilatation 55
Bronchomotor tone 173
Bronchospasm 173
Bronchus 313

Cell culture 343
Cell isolation, pneumocytes I
Cell-mediated immunity 163
Chloride 117
Cigarette smoke 237
Cigarette smoke degrades hyaluronic acid. C. A. McDevitt, G. J. Beck, M. J. Ciunga, J. O'Brien 237
Cilia 277
Collagen, types I and III 313
Connective tissue disease 69
Contour maps of auscultatory percussion in healthy subjects and patients with large intrapulmonary lesions. A. B. Bohadana, R. Patel, S. S. Kraman 359
Control of breathing in patients with short-term primary hypothyroidism. M. Gorini, A. Spinelli, C. Cangioli, F. Gigliotti, R. Duranti, P. Arcangeli, G. Scano 43
Cyanogen bromide 313
Cycle ergometer testing 129

Diaphragmatic weakness and paralysis. P. G. Wilcox, R. L. Pardy 323
Diaphragm, paralysis 323
Diaphragm, strength 323
Diaphragm, weakness 323
Dimethylsulfoxide 237
DNA hybridization, in situ 33
Dog, lung 213, 351

Editorial: A new approach to measurement of lung mechanics. S. S. Park 137
Effect of aluminum inhalation on alveolar phospholipid profiles in experimental silicosis. R. Bégin, F. Possmayer, M. A. Ormseth, M. Martel, A. Cantin, S. Massé 107
Effect of breathing pattern during inhalation challenge on the shape and position of the dose—response curve. S. Guillemi, A. L. James, P. D. Pare 95
Effects of age and breed on the phospholipid composition of canine surfactant. C. Clercx, A. J. Venker-van Haagen, J. N. den Breejen, H. P. Haagsman, W. E. van den Brom, H. W. de Vries, L. M. G. van Golde 351
Effects of tannins from different sources on airway epithelial and platelet function. M. M. Cloutier, M. S. Rohrbach 117
Elastic subtraction method 141
Electromechanical activity 173
Electromechanical effects of leukotriene D_4 on ferret tracheal muscle and its muscarinic responsiveness. H.-K. Lee, C. G. Murlas 173
Electromyography, diaphragmatic 43
Embolism 225
Emphysema 237
Excitation-contraction coupling 173
Exercise test methods 247
Extracellular matrix 313

5-Hydroxytryptamine 117
Free radicals 237

Gas exchange 285

Glutathione 269
Glutathione disulfide (GSSG) 269

Hemodynamics 285
High altitude 269
HPLC 343
Human papilloma virus (HPV) 33
Human papillomavirus (HPV) type 6 and 16 DNA sequences in bronchial squamous cell carcinomas demonstrated by in situ DNA hybridization. K. Syrjänen, S. Syrjänen, J. Kellokoski, J. Kärjä, R. Mäntyjärvi 33
Hyaluronic acid 237
Hypothyroidism 43
Hypoxia 269
Hypoxia increases plasma glutathione disulfide in rats. S.-W. Chang, T. J. Stelzner, J. V. Weil, N. F. Voelkel 269

The incidence of legionella pneumonia: a 1-year prospective study in a large community hospital. B. Ruf, D. Schürmann, I. Horbach, F. J. Fehrenbach, H.-D. Pohle 11
Inhalation-to-perfusion ratio 213, 225
Inhalation, toxic fumes 69
Inhibition of ciliary activity by phorbol esters in rabbit tracheal epithelial cells. K. Kobayashi, J. Tamaoki, N. Sakai, A. Chiyotani, T. Takizawa 277
Interrupter method 141
Ion transport 117
Isolation of bovine type II pneumocytes in high yield and purity. H. G. Augustin-Voss, H.-A. Schoon, N. Stockhofe, S. Ueberschär 1

Legionella pneumonia, diagnostic methods 11
Legionella pneumonia, incidence 11
Legionella pneumonia, therapy 11
Legionella pneumonia, urine antigen detection 11
Localization of collagen in the rat lung: biochemical quantitation of types I and III collagen in small airways, vessels, and parenchyma. J. Kelley, L. Chrin, J. T. Coflesky, J. N. Evans 313
L-triiodothyronine replacement therapy 43
Lung disease, rehabilitation 247
Lung diseases, obstructive 247
Lung function, maximum and submaximum exercise testing in COPD patients: reproducibility over a long interval. A Noseda, J-P. Carpiaux, T. Prigogine, J. Schmerber 247
Lung lymphocytes in bleomycin-induced pulmonary disease. J. P. Karpel, T. K. Aldrich, S. Mitsudo, A. J. Norin 163
Lung masses, sound amplitude 359

Methacholine 95
Mouth occlusion pressure 43

N-acetylcysteine 23
^{99m}Tc Aerosol, ^{99m}Tc 225
Normoxia 187

Obstructive lung disease 129
Oropharyngeal contamination, bacterial 261
Oxidative stress 269

Perfusion scintigraphy 201
Phorbol ester 277
Phospholipid 343
Phospholipid composition 351
Plasma volume expansion and PEEP in a canine model of acute *pseudomonas* pneumonia. P. Hanly, R. B. Light 285
Platelet aggregation 117
Pneumocyte, type II 1, 343
Pneumonia, organizing 69
Polymorphonuclear leukocytes, human 23
Poly-vinyl-pyridine N-oxide 23
Protein kinase C 277
Proteoglycans 237
Pulmonary artery 313
Pulmonary connective tissue 313
Pulmonary elastance 149
Pulmonary fibrosis 163
Pulmonary flow resistance. J. Milic-Emili 141
Pulmonary perfusion 285
Pulmonary resistance 149
Pulmonary scintigraphy in canine lobar and sublobar airway obstruction. C. Clercx, W. E. van den Brom, A. A. Stokhof, H. W. de Vries, 213
Pulmonary shunt 187
Pulmonary surfactant 351
Pulmonary tissue 141
Pulmonary toxicity 301

Quantitative analysis of radioaerosol inhalation and perfusion scintigraphy in dogs. W. E. van den Brom, C. Clercx, A. J. van Toor, H. W. de Vries 201
Quartz 23
Quartz-dust-induced production of reactive oxygen metabolites by human granulocytes. M. Hedenborg, M. Klockars 23

Radioaerosol inhalation 201
Radionuclide scanning 201
Reactive airways dysfunction syndrome presenting as a reversible restrictive defect. R. Gilbert, J. H. Auchincloss, Jr. 55
Reactive oxygen metabolites 23
Reproducibility of incremental maximal cycle ergometer tests in patients with mild to moderate obstructive lung diseases. N. J. M. Cox, J. C. M. Hendriks, R. A. Binkhorst, H. Th. M. Folgering, C. L. A. van Herwaarden 129

Scintigraphic analysis as a diagnostic tool in canine experimental lung embolism. C. Clercx, W. E. van den Brom, T. S. G. A. M. van den Ingh, H. W. de Vries 225
Scintigraphy, dog 225
Scintigraphy, ^{99m}Tc 213
Serotonin 149
Silicosis 107
Slow-reacting substance of anaphylaxis 173
Smoking 237
Smooth muscle electrophysiology 173
Sound frequency 359
Special precautions reduce oropharyngeal contamination in bronchoalveolar lavage for bacteriologic studies. J. A. Pang, A. F. B. Cheng, H. S. Chan, G. L. French 261
Sternal percussion, sound transmission 359

Trachealis muscle 173

Viral oncogenesis 33
Viscoelasticity 141
